HOW WE GOT THIS WAY WILL RED BUTCHER "BURY US" AT OUR BACK DOOR?

— ORDERED TO WITHDRAW —

During the crisis the last few weeks while the people who still remained asleep were shaken into the realization we were finally living with communist bombs trained upon us, a few days of which 42 atomic bombs were directed at our cities waiting only for the push of a button, one thing of interest was missing. All newspapers and other publications carried pages of articles about the terrible situation we were in, but not one mentioned how we arrived at this spot. Is no one interested? Has no one been interested for years in what was shaping up? Certainly the public would like to have known and would like to know now.

For 17 years **Common Sense** has been giving these vital facts to as many as possible, always limited for lack of necessary funds.

But newspapers are set up for profit to stockholders and to publish the facts would bring retaliation by their advertisers, Jews, who would have to hide if the public realized that the Jewish-controlled administration, using taxpayers' billions, brought all this on us. This group in charge of the administration is part of the machine and fully responsible.

Kennedy pledged at Roosevelt's grave before election that he would take up the banner where F.D.R. laid it down and this is one pledge he has lived up to. Look at his appointments, all part of the marxist machine that has placed the United States in this frightening position.

Why should a person so unimportant, so low on the scale of popularity write authoritatively on the present crisis? Strange but true, the writer is better informed on the overall frightening picture this government faces than any confidant of Kennedy or Kennedy himself. Why? Not because he is smarter or has more education, but because he has devoted more years of study to the world conspiracy. There are a few persons in the United States who are as well informed on the overall picture as the writer, but they are not in the government employ.

Since 1933 the writer's judgment on every important move by this government has proved correct, while practically every major international move by this government has proved wrong.

Since 1939 we have been aligned with the wrong people until we, ourselves, financed and gave the blood of our youth to build up a hell on earth for us to face, no one knows for how long.

The Jews who have control of public expression were telling us in thousands of page ads, "we must stop Germany." They did not tell us Germany was trying to destroy marxism and communism.

Roosevelt started off with a terrible mistake when he recognized the Soviet Union in 1933; these Bolsheviks were in chaos and falling apart, as they had no credit. The Jews were pressuring Roosevelt. Soviet Union Ambassador to the U. S., Litvinoff (Finkelstein), later made fun of F.D.R. for taking seriously his promise not to propagandize here.

General George S. Patton

Had General Patton held Eisenhower's position he would have gone straight to Moscow and cleaned the Reds out and there would be no communist threat today. Instead he was ordered to withdraw 110 miles from Berlin and then relieved of his command.

Any sane honest person, now watching us squirm under communist threats while we are 5000 miles from the Soviet Union, can appreciate Germany's situation with these devils only across their borders and pouring in through Czechoslovakia by the thousands to help break Germany down. And Germany began putting these people in guarded camps. It was evident 98% were Jews. The Jewish residents began screaming "persecution" and the organized Jews in London, Paris and New York got busy. More than 300,000 left Germany, the majority to the U.S. where they joined up with our Jews who were becoming powerful under F.D.R.

The Soviet Union sent 100,000 soldiers to help hold Spain under communism in 1936 and 1937 and would have succeeded, if German and Italian fighter planes had not helped Spain when one and one half million lives were lost. The communist troops retreated to the Soviet Union and Stalin knew they could never leave their borders to take over other countries until Germany was beaten.

Newspapers who wished to retain page ads from the large stores, all owned by Jews, were forced to join in the frantic screaming and lies about Germany. First the page ads said "Stop Hitler!" He was smeared so much his mother could not recognize it was her son. "He got on his knees and chewed rugs" was one of the hundreds of lies. Hitler has been gone 17 years and communism is at our back door, but TV, and movies (Jew owned) seldom skip a night when a "Hate Germany" program is not on.

Rudolph Hess flew to England and asked them to come in and help Germany stop communism, but Churchill had him locked up. Roosevelt, pushed on by the Jews, had our Navy sink even large German ships;

but Germany ignored this as they had 21 nations on them already. We had to get into the war, hence the Navy and Army at Pearl Harbor were ordered to bring in all ships under them and line them up as a temptation to Japan; then we ordered Japan to do the ridiculous. More than 3000 of our boys died and nearly all the ships went down and Germany, through her alliance with Japan, was forced to declare war on the U. S. Eleanor Roosevelt later in a speech at Philadelphia stated they monitored radios for eight days expecting the Pearl Harbor attack. Our boys who were killed did not expect it.

Immediately after Pearl Harbor, Washington ordered the bulk of our forces not against Japan, but against Germany. The Jews for whom F.D.R. was fronting demanded Germany be crushed to save communism.

An unlooked for emergency confronted Germany, causing them to delay 3 months their march into the Soviet Union, and although they reached 20 miles of Moscow, the three month delay caused them to be trapped in bitter winter weather with mud and snow, and soldiers not dressed for it.

Thousands of our bombers destroyed German cities 70%. General George S. Patton, one of the greatest ever produced in the United States was ordered to draw back his men from Berlin 110 miles and let the communists take over; hence we have the dangerous fuse in Berlin. Had General Patton been put in Eisenhower's place, there would be no communism today. He wanted to go on through and clean them out, but Jews in Washington had him fired for his desire.

Germany was crushed. F.D.R. had turned many countries over to Stalin, given more than a hundred large ships, factories and 11 billion dollars in trucks, planes, guns, etc. to the Soviet Union. In the meantime the swarm of Jews in Washington were turning thousands of patents (confiscated from Germany) and our atomic secrets over to the communists who kept a steady stream of planes going from Great Falls, Montana, to the Soviet Union.

At this time world Jewry was 100% for communism. Henry Morgenthau and Harry Dexter White and others in the Treasury Department gave the communists plates to print our money, three plane loads of special ink and four loads of secret paper. No one has any idea of how many millions they printed. Soon we had built a Frankenstein with a devil, Stalin, at the head. It is estimated that during this period from 60 to 70 million innocent people were slaughtered at Stalin's orders.

The Ukrainian farmers were revolting against communist rule being forced on them. Based on Khrushchev's past record, Stalin sent him to the Ukraine to bring peace and coexistence. Khrushchev directed the slaughter of between six and ten million Ukrainians and there was peace. Later when Poland was on the verge of revolt, Stalin sent his top butcher to bring peace. Khrush-

Zoltan Klar Opposes Hungarian Anti-Communists

ZOLTAN KLAR, Hungarian Jewish Editor of "Ember" in New York City has been very active in **OPPOSING** Hungarian anti-communists in the United States. Klar has a very bad record.

The following is a translation from—"Uj Elet" meaning "New Life"

This is the official paper of the Jewish Congregation of Budapest.

Budapest 1962 - Feb. 1st - 2nd page.

The real portrait of Zoltan Klar, as mirrored in the Hungarian Book, "Karmos evek," meaning the "Years with Claws," was graphically portrayed in the self biography of Joseph Nadass, the well known Hungarian writer and poet. In this volume, which is the continuation of the novel "Flame and Soot," the author describes the years of Fascism, very often with shocking force, and the reader gets acquainted with documentary material from the hellish mass of Fascism. Joseph Nadass suffered in Mauthausen with other Hungarian political prisoners. He fixed the image of his experience in his mind in such a way, that after 17 years he is able to vividly reconstruct for his readers his trials in the camp.

The most interesting and shocking section of the book is that dealing with Mauthausen. Equally shocking and revealing is the chapter, "In Deepest Hell." In this chapter the author narrates his meeting with Dr. Zoltan Klar, the chief editor of a defunct periodical called "Tarsadalmuk" which means "Our Society." Klar, a former gynecologist, is at the present time editor of the newspaper "Ember" in New York. Here he indulges in libels of Hungarian Peoples' Democracy and the Hungarian Jewry. He publishes articles composed of falsehoods and unconfirmed loose allegations. Many things were whispered and talked about concerning the behaviour of Dr. Zoltan Klar in the camp of Mauthausen and about the way he treated the people imprisoned there. The following is a quotation from part of the book by Joseph Nadass. Here the author, who was both witness and victim, suffered under the "blissful" activities of Zoltan Klar. Klar was then Director of the hospital.

Zoltan Klar was the chief medical officer of barracks No. 6. Here in Mauthausen, Klar was as conceited, repugnant and arrogant as he was (as a political officer) in the prison at the Main Street in Budapest. At the end of May, he informed me confidentially that the headquarters of the camp intended to appoint him to be the chief medical officer at the Jewish Hospital barracks here. Up to that time, a Jew could not get into a hospital in Mauthausen. Behold, here is the unheard of change, a barracks was to be equipped as a Jewish Hospital and Klar was selected to be the leader. What do I advise? Should he accept it? "Of course you have to accept it," I said. "But you know" Klar answered "that I have not had any medical practice during the last decade; I am a newspaper editor."

Joseph Nadass describes thereafter that he persuaded Klar to accept the assignment and that he should realize how many persons he could help in that position. And then the author continues thus:

But what did he accomplish after that? I saw it only when I got down into his deplorable empire. Bunks with three levels were crowded next to each other on both sides of a barracks and about 50 meters (about 55 yards) long

Zoltan Klar

of rotten lumber. There was a 3/4 meter wide passage between the two rows of bunks. There was a straw mattress in some of the bunks and in the others, only on boards, 3 to 4 sick persons (already skin and bones) were huddled together. What would this mean? Even if they were treated and cured from one sickness, if their bed companion suffered from a contagious disease, it would be transmitted to them. But anyhow, what was the medication? The barracks received 25 to 30 aspirin tablets which was all the rationed medicine allotted for many hundreds of sick people.

Klar traded a portion of the medicines on the black market. The remaining portion which he really distributed amongst the sick were, incidentally, given to those who gave him presents. But what was a bare, sick beggar able to donate? He gave him the nightly portion of margarine and his portion of sausage which amounted to about two bites. The Chief Medical doctor, Klar, accepted it. There was another Hungarian doctor in the barracks, Elmer Pollacsek, an elderly, prominent throat specialist, who came as a patient, but he did everything he could for the sick (conscientiously). The "everything" here, however, was very little. Pollacsek struggled with all his strength, and prepared recommendations for improvements. Klar became jealous and afraid it would be discovered that Pollacsek was a doctor and that he, Klar, did not know medicine. He feared that the result would be that Pollacsek would become the chief medical officer and get the extra food ration and the medical provisions. Klar stole the petitions written by Pollacsek, prevented the doctor's healing work by giving contradictory (different) instructions to the nurses and assistants. Finally, Klar denounced the old doctor at the SS. Pollacsek was degraded and now treated as a common patient.

When I succeeded in being released from the camp, Pollacsek begged me in whispers to inform his friend Rassay that he should be released from there and to get him transferred to any place else because Klar would kill him there. This was perhaps an exaggeration, but it is certain that Klar

accelerated the death of the prominent doctor.

These are the written words by Joseph Nadass in his book about Zoltan Klar, the person who, as "champion of the Western World," slanders (libels) Hungary in the columns of his paper "Ember," edited in New York. It also may be noted that the Elmer Pollacsek mentioned in the book was a Jew.

We did not add nor subtract anything in the translation. In so far as Klar may want to publish this article in "Ember," he has our permission, free of charge.

UN — UNICEF — UNESCO — Groups of letters put together to mean words. Words put together to mean ideas. Ideas put together into organizations to mean a world united. United nations working together and cooperating so everyone can live in a peaceful world together. And so the United Nations was born over sixteen years ago. How did it start and how has it been working since then?

The United Nations charter was signed on June 26, 1945 as the result of agreements between the leaders of governments victorious in World War II. These agreements outlined the form of the organization and gave its aims and the methods by which it would operate. Later, more agreements were made which brought the **World Court** and other international agencies in with the United Nations. The internationalists had been working hard towards **world government**. They had failed with the **League of Nations** but now they had injected the remains of the League of Nations into the United Nations and this was the first mild pill in a prescription to addict us to world government.

The United Nations has many sub-committees, and more and more they take control over the world's finances, military arrangements and trade. There are international trade agreements in effect which allow international agencies to set quotas for exports and imports for the United States. This means our government permits foreign agencies to tell our farmers and other producers not only how much they can sell, but at which prices and to whom. This enforcing of international restrictions substitutes voluntary agreements of a free people and free governments.

International restrictions many times mean injustice, and it seems that our leaders, in agreeing to this international organization, the United Nations, valued our national and individual freedom and independence less and less and involved us more and more in international affairs.

We were put into the **Korean "War"** through the United Nations and then not allowed to win it. The United Nations kept **prolonging the "war"** there just as they did later in **Indo China**.

The **Chinese Communists** seized **Tibet** and the **UN** did nothing. When the **Russians** invaded **Hungary**, the **UN General Assembly** discussed the problem of stopping military aggression in that country, but while the General Assembly (should we call it the International Debating Society?) stalled around talking, the Soviets completed their mission and took over **Hungary**. To this day, the Hungarians have never gotten back their freedom. They can't even have a free election under the sponsorship of the United Nations to decide if they want to be controlled by the Soviet Union, or rule themselves.

UNITED NATIONS MOBILIZES KATANGA INVASION

By Austin Mosher

During the past year many Americans have been horrified by reports of atrocities committed against the Christian AntiCommunist people of Katanga Province in the African Congo.

Hundreds of unarmed men, women, children, priests, nuns and missionaries have been brutally raped, tortured and murdered by troops of the United Nations Command, for no other reason than that they refuse to surrender their sovereignty to the Congo Central Government which is Communist dominated.

The United Nations Charter states that that organization shall not interfere in the internal affairs of any nation. What, then, are U. N. troops doing in the Congo? Until recently no one seemed to be quite sure of the answer to that question. But now documents have come to light which put the whole sordid story in proper perspective. It is one of the most infamous plots in history. When the truth gets out to the people it will shock them and, we hope, will cause an uproar of indignation.

Secret Memorandum Report written on October 1, 1962 by the United Nations Secretariat, outlines in detail a plan for carrying on an invasion of Katanga within the next two weeks, which the authors of the Report hope will crush all opposition. According to the Report there are at this moment 15,000 U. N. troops mobilized on the borders of Katanga, ready to move in. Of these, 4,000 are Indian Gurkhas who are known to be savage fighters. The Report leaves no doubt in the mind of the reader that this unholy warfare against Katanga will result in the ruthless killing of more innocent people.

To Americans the really shocking part of this thing is that President Kennedy has been apprised of the plan and has given his approval, and a promise that United States transport aircraft and helicopters will be furnished for use in carrying out the operation.

But, the Report says, Mr. Kennedy has requested that the plan be held up in abeyance until after November 6, because he is afraid that public opinion in the United States will have an adverse effect on the outcome of the election if the invasion is carried out before then. The U. N. troops, therefore, have been ordered to be prepared for action as of November 12.

Congressman Donald Bruce, (R. Ind.) addressed the House on September 12, 1962 and produced irrefutable evidence to support his allegations that powerful American and foreign financiers were virtually using United Nations troops as mercenaries to carry out a conspiracy to capture the rich natural resources of the Congo, most of which are in Katanga Province. Mr. Bruce named dozens of industrialists, bankers and financiers in various parts of the world who are parties to this conspiracy. He also named high ranking officials in our own State Department.

Premier Moise Tshombe of Katanga stated publicly several weeks ago that the real issue in the Congo was the great wealth which greedy men wanted to control for their own gain, by whatever methods this could be accomplished, even if it meant shedding the blood of innocent people. This bears out what Mr. Bruce disclosed in his speech in Congress, which, for obvious reasons, never got into the newspapers.

It is inconceivable that the President of this God-fearing nation would support such a conspiracy against a peaceful anti-communist people, and that he would give millions of dollars of American taxpayers' money to defray the expense of carrying out the conspiracy. His self-confessed fear

of public opinion is an admission on his part that there is something highly immoral about the whole thing. Surely every self-respecting citizen will agree that the President does not speak for the people in this matter.

How can anyone with humane instincts stand idly by while this plot is carried out, without remonstrating? Instead of supporting this unwarranted aggression against the people of Katanga, the President, and our representative in the United Nations should rise up and condemn the conspirators, and demand that the plan be abandoned. Better still, the President should make it clear that he will use the Armed Forces of the United States, if necessary, to protect the people of that unhappy country.

A very wise man once said that there would be no justice in the world until those who are not injured become as indignant as those who are. Katanga is several thousand miles away, and we may shrug our shoulders and say that what goes on there is none of our concern. But the President has made it our concern by committing our government to support something which we as individuals would never condone.

The black people of Katanga are human beings, fighting for their lives. They love their homeland and their children as much as we do ours. They bleed when they are wounded and they suffer the agonies of death like anyone else. How can we live with our conscience if we do not become indignant and demand that righteousness shall prevail?

Note Editor:

The documentation may be had from the following sources:

The U. N. Secret Report from American Committee for Aid to Katanga Freedom Fighters, 79 Madison Ave., Suite 909, New York 16, N. Y.

The speech of Rep. Donald Bruce was printed in the Congressional Record on Sept. 12, 1962, pages 18138 to 18151. Printed copies may be had by sending \$1.00 to Liberty Lobby, 918 Capital St., Washington 2, D. C. Public libraries in many cities receive copies of the Congressional Record by mail and keep them on file for public reference.

The group mentioned above, which organized to grab the mineral wealth of Katanga, deposited 100 million dollars in a Swiss bank. A few of this group are: Bo Gustav Hammaraskjold, president of the group and brother of Dag Hammaraskjold, who was then Secretary-General of the United Nations; Sture Linner, who was chief of civil operations for the United Nations in the Congo was one of the important members; he controlled U.N. policy concerning Katanga. Also in this syndicate was United States Foreign Aid Chief, Fowler Hamilton. Hamilton arranged for foreign aid money to be turned over to the U.N. for its war on Katanga. Under Secretary of State, George Ball, was also involved in this maneuver.

HOW WE GOT THIS WAY

—o— Continued from page 1 —o—

chev asked that all Polish leaders meet with him and his staff to form a peaceful arrangement. When they were all assembled, the communist soldiers surrounded the building and the Polish leaders were shot, and there was peace.

Later the communists used a similar ruse to assemble 14,000 Polish officers and priests burying them in four mass graves, then

planting trees over them. When the German army came in and learned of this massacre in the Katyn Forest and dug up the graves, with captured American colonels as witnesses, who reported it to our Defense Department, but our government kept quiet for four years and let the communists blame the Germans. Poor Poland was invaded by Germany and the Soviet Union. F.D.R. condemned Germany, but gave his consent for his pal, Stalin, to take Poland. F.D.R. urged Poland to defy Germany and authorized Ambassador Bullitt to promise Poland 100 planes within 7 days, but let them be slaughtered and gave them not even one rifle.

As the bloody communists gained strength and arrogance, nursed on our taxpayers' money, the local friends of the Soviet Union, liberals and State Department blocked every move for our self protection.

The bombs which have us in fear, from which we are spending billions to defend ourselves, are from the secrets the communists stole in Washington. Now we give respect and hearing to Khrushchev just as if he were civilized. Kennedy and the State Department have had hundreds of talks with these apes and we gained nothing. We beg for agreements with the devil's agents. If we are to have the respect of the world we should refuse to meet with them on Berlin, Cuba, Laos and Korea. We should shout "NO" at every proposal and run their standing in the world down to nothing.

A mad dog would be shot down in the street, but this lying, Bolsheyik butcher was allowed to speak over our entire TV system to weaken our peoples will to resist.

The political saps running our government for years are so interested in the welfare of ungrateful, greedy and pro-communist countries, they give them billions of our taxpayers' money. We get insulted or learn we helped communism in almost every case. But they are careful not to say a word of encouragement to the millions of people in Hungary, Poland, for fear we will offend the bloody butcher, Khrushchev. It is time, if we are to continue to exist, that we curse the Bolsheviks, throw the rule book away and smuggle guerrillas first into Hungary. Millions in the Soviet Union, as well as the satellite countries, will revolt. Give Chiang Kai-shek the green light and soon communism in the world will be dead. In the United States put every communist in an armed camp, clean out the State Department and fire 82 Jews in top positions surrounding Kennedy.

It is well to remember during this time we have been brought to our knees that since 1912 Bernard Baruch has been chief consultant to our Presidents.

This has been cut short due to lack of space, but you have the highlights which brought us to this situation which will bankrupt or enslave us.

Some timid souls will think this is a little rough; would they prefer we spend the rest of our lives waiting for communism to make the moves while they take the world a slice at a time?

This has happened most recently in Goa, previously in Vietnam, and in the Congo where we are picking up the tab to the tune of 47.5 million dollars to support a pro-communist cause. And now we are asked to bail out the United Nations with more of our tax dollars, 100 million of them to be exact.

If any nations should ascertain self determination, it should be the slave states of the Soviet bloc; Hungary, Poland, Czechoslovakia, Latvia, Lithuania, Rumania, and many others. We freed the slaves after the Civil War, but the only success the UN has had is for the Communists to gain more and more slaves.

Where our military is concerned, it seems they no longer get their orders from the Pentagon, but from the United Nations. As one of our military men put it: in one area, along the Berlin Wall, our troops are told to fight the Communists; then orders come from UN headquarters to send a number of plane loads of troops to the Congo to assist a pro-communist government to unseat an anti-communist, pro-western government, which in effect means we are fighting against ourselves.

How could we possibly get involved in an organization that is so powerful that they can get us to fight on both sides? This is peace? Remember the United Nations was supposedly born so we could all live in a peaceful world together.

One reason we are so involved is because our American representatives at San Francisco who helped make the Charter, and our Senate who ratified it, could not or would not see the difference between it and our Constitution and Declaration of Independence. Our Declaration of Independence states that we are endowed by our Creator with certain unalienable rights. The United Nations mentions no Supreme Being, but instead, itself grants rights or privileges, and then also reserves the right to take away these privileges if it so desires. Another reason we are so involved is because of our Constitutional provision that all treaties become the Supreme Law of the Land. We live up to our treaties and agreements. The Soviet Union does not, unless it's beneficial to her.

Over the years, state and local governments have yielded more and more power to Washington; Congress gives more and more power to the President and the President passes this power down to unelected individuals, like Alger Hiss, who because of the role he played in the writing of the United Nations charter wielded power over our lives, our liberty and our property.

UNICEF—its purpose is to promote health and combat disease and malnutrition in newly developing areas of the world. Why then doesn't it spend the \$36,100,000 it's holding. This amount does not include their regular annual income, so there's no reason why they can't spend it to alleviate hunger, especially on Formosa where there are many Chinese children who had fled their Mainland to escape Communist enslavement. In fact, there is over 1 million dollars which was allocated for Chinese children, but it remains in UNICEF's treasury. And this while UNICEF pleads for funds in their

circular "Let Your Greetings Help A Child." (atheistic greeting cards, you can be sure)

UNESCO is one of the specialized agencies of the UN also, created under the charter. Its program is channeled through radio, television, schools, churches, newspapers, magazines, movies, etc. Its purpose is high sounding too, but everything in it is for the international order. They don't say they want to destroy American patriotism, yet one of their aims is rewriting American textbooks, just as they have rewritten the history of man. "A Scientific and Cultural History of the Development of Mankind" was written by UNESCO contributors from many countries. Atheists helped with the writing of this book, key personnel and writers from the infamous Institute of Pacific Relations were contributors and consultants, and other contributors were Americans and foreigners who have records of pro-communist collaboration.

UNESCO doesn't say it wants to destroy religion, but look at how it presents internationalism and world citizenship as the most glorious achievement available to mankind. Do they ever mention God, or Christ, our Lord?

Their latest grab for power is the treaty "Convention Against Discrimination in Education," and the Recommendation, "Recommendations Against Discrimination in Education." If these two, or either of these are passed, it would mean that UNESCO would have control of our entire American educational system, and then one of their goals would be achieved. They would be able to reduce everyone to conformity. It was Lenin who said, "Give us the child for eight years and it will be a Bolshevik forever." And it's UNESCO who says, "The kindergarten or infant school has a significant part to play in the child's education. Not only can it correct many of the errors of home training, but can also prepare the child for membership, at about the age of seven, in a group of his own age and habits—the first of many such social identifications that he must achieve on his way to membership in the world society."

Eight Communist countries, including Russia and Cuba, aided in the final drafting of the "Convention Against Discrimination in Education." Two countries, France and Israel have ratified it. Only one more country need ratify it and it enters into force on every member country of UNESCO. Article eight of this treaty gives jurisdiction to the UN court. Article nine forbids any reservation, so that throws out our Connally Amendment. This puts you and me, everyone, under international law, subject to arrest, trial and punishment by the UN court.

Yes, the internationalists are working hard, and whether they know it or not, they were joined long ago by Communists, to make this United Nations into a one world government. For even if the internationalists don't know it, the Communists know that World Government is scheduled as the climax of Communist world conquest.

George Washington, in his farewell address, warned of foreign entanglements, when he told the American people, "Steer clear of permanent alliances." If we would heed his words, we could save our freedom.

Operation College Youth — OUR FUTURE LEADERS

Where are yours? Where are the back copies of the conservative, anti-Communist papers, periodicals, and newsletters you have been receiving these past months and years? If you are a typical subscriber, you have saved them all right, and your collection fills bags and boxes all over the house. A cautious estimate is that there are at least 375,000,000 pieces of informative material packed away, and 125,000,000 more pieces being printed and mailed annually! And what happens to yours when you are through?

Our Communist "friends" properly recognize that the biggest battleground in their war to bury us is the mind — particularly the expanding, normally rebellious, inquiring mind of today's college and seminary student. If they are successful in their battle to win these young unsettled minds, then they have also won the future — yours and mine. THIS MUST NOT BE!

If, by their simple act of providing college libraries with their subscriptions to subversive publications, and by flooding campuses with their material — if they are thus able to divert these youthful minds to their sinister purposes, THEN WHY CANNOT WE — WITH THE SAME TACTICS — SAVE THESE VERY MINDS AND GUARANTEE THE PRESERVATION OF THE IDEALS ON WHICH THIS NATION WAS FOUNDED?

Suppose — just suppose — that you purchase from any college near you a copy of the Student Directory which contains the names and addresses of all students and college personnel. Pull out all your back issues of your anti-Communist, anti-Socialist materials! Stuff them into envelopes and send them to these students whose addresses you have secured. AND KEEP IT UP! Every time you get a new issue, read it, and remail it to a college student!

Communists and Socialists reluctantly admit the difficulty of "selling" their lines where students have been exposed to anti-Communist literature. And we are selling something so admittedly superior to their subversion! Can a postage stamp save a country? Try it!

Contact your local college or university today for a copy of their Student Directory. Should you be unable to secure a Directory at the Registrar's Office, borrow one from a student or employee at the college. Then get busy addressing and stuffing envelopes. You can send up to one pound of marked "educational material" for only nine cents postage. Mail until you have emptied your collections of back issues. Place them where they can do the most good. Spot surveys have shown an average of eleven students reading material sent to one. On the other hand, Congressmen, being sent the same material most often NEVER see it, let alone read it or share it with others.
